FILTER HOUSING INQUIRY CHECKLIST

Please have the information listed below ready to provide when placing an inquiry to allow us to better serve your filtration requirements.

1. Type of filter housing (Bag, Cartridge, Hi-Flow etc)
Operating/Design pressure (PSI or KPA)
3. Operating/Design temperature (°C or °F)
4. Corrosion allowance (in or mm)
5. Code of construction (ASME Section 1 or others)
6. NDE requirement (RT,MT,UT others)
7. Housing material of construction (CS,SS, others)
8. Nozzle connection sizes/rating (NPS/DIN)
9. Flow rate (GPM or LPM)
10. Service fluid
11. Fluid Density (lb/ft³ or kg/m³)
12. Fluid Viscosity (cP or cSt)
13. Desired particulate retention size (micron)
14. Nature/Type of contaminant (Solid, Gels etc)
15. Dirt loading concentration (PPM)
16. Clean pressure drop requirement (PSI or KPA)
17. Additional requirements
18. Company contact information
